The country is heading towards economic development due to the support of Special Investment Facilitation Council and government efforts.

An economic transformation plan Uraan Pakistan has been launched with the commitment to make Pakistan a three trillion dollar economy by 2047.

The plan aims to implement economic development initiatives with the firm commitment of all provinces, ministries, and sectors.

Under Uraan Pakistan, the CPEC project is considered the cornerstone of Pakistan's development.

The focus will be on exports, e-Pakistan, climate change, energy and infrastructure and equality under the '5 E' framework.

Efforts will be made to position Pakistan as a global techno-economic hub through the development of freelancing and AI.
