IV. Kasbati & Co Recommendations: In our view, POL prices are likely to increase owing to minor increase in international crude oil prices, however, this may increase sharply in case of restart of Gulf issue (like recently to some extent). Hence, to save millions compared to competitors, we reiterate our recommendation to fill all the entity's vehicle tanks (to the possible extent) ASAP, given several PGECs covering increases, ignoring a few PGECs covering minor reductions. However, please see para V & VII.

Subject: PGEC227: POL Shortage & Expected price increase and KC Recommendations

I. Background: This refers to PGEC224 about MS & Diesel price increase, as KC predicted. Have Your Entity taken benefit?? (b) PGEC 226 about HSD, MS, & HOBC price history

II. Shortage: As per a reliable source, there is shortage of Petrol & Diesel as evident from certain pumps in a far flung areas, which became dry (and may likely the same position in cities shortly). Moreover, most Distribution companies are either not providing POL or providing less than 50% of the pumps' requirement; likely owing to matter in para III or overall shortage in upcoming supply to Pakistan and International prices increase.

III. POL Prices Expected increase: Effective from 12:01am on 18.7.26, we also expect the increase in POL Prices in Pakistan owing to international, unless Government reduces Petroleum Development Levy (**PDL**) to counter the increase.

IV. Kasbati & Co Recommendations: Keeping in view para II & III, to minimise POL expenses, arrange to fill all the vehicles ASAP today and ensure POL therein in till atleast Saturday 18.7.27 evening. We expect likely rush at Petrol Pump from today or tomorrow evening
